Helping workers develop problem-solving skills. Learn training techniques to help workers at your organization develop problem-solving skills on the job.

Helping Workers Develop Problem-Solving Skills

Problem-Solving Skills â€” Creative and Critical. An important goal of education is helping students learn how to think more productively while solving problems, by combining creative thinking (to generate ideas) and critical thinking (to evaluate ideas). Both modes of thinking are essential for a well-rounded productive thinker, according to experts in both fields:

The first WHO Global report on diabetes demonstrates that the number of adults living with diabetes has almost quadrupled since 1980 to 422 million adults. Factors driving this dramatic rise, which is largely on account of type 2 diabetes, include overweight and obesity. The new report calls upon governments to ensure that people are able to make healthy choices and that health systems are ...
